

Course Progress Policy

Attendance

Learners can work through each sprint at their own pace. There are not required log in times, however it is highly suggested that you either attend the online cohort meetings and Facebook session live or view the recordings of these sessions in order to stay up to date on your sprint work.

Scoring & Evaluation

The only portion that is required to be turned in is the Sprint Project and you will need to receive at least 80% in order for it to be deemed successful. If you receive less than 80%, your coach will offer you valuable feedback in revisions. It is expected that revisions will be resubmitted prior the the start of the next sprint. Since each project builds on the previous one, you will actually use some of the previous project to start the next one.

Late Work & Extensions

All projects are due on the designated dates as stated in the program handbook. Please contact your coach immediately should an unforeseeable circumstance prevent you from completing the project by the designated date. Coaches will try to work through an appropriate timeline.
