EDUCATION PODCASTS TO LISTEN TO

- * The Creatively Connected Classroom
- * Art Made Easy
- * Build Math Minds
- * The Cult of Pedagogy
- * Truth for Teachers
- * The House of EdTech
- * Inside Innovation

PURPOSE OF PODCASTS IN THE CLASSROOM

1. Provide information in a fun and entertaining way (thus, increasing student engagement)
2. Extend student learning with critical links between content areas
3. Synthesize student learning through podcast creation and
4. Communicate with parents and the community

PODCASTING IDEAS

1. Try using podcasts as a center - either for listening to previous content or new information
2. Ask students to create a podcast based on a research project, interview or tutorial.
3. Incorporate stories! Podcasts can be a great way for students to learn and share through storytelling.
4. Use podcasts as a way to share your own insights and information, either with other educators or as a communication tool for the community.
